

1).

Top 5 Actor Name who appeared and directed in same movie

The above graph shows the top actors who directed in the same movie. In this graph it is clearly seen that Lovhaug is the top director with most number of movies as an actor and director together, which is 827. Doug Walker is at second position with with some below 750 movies. The reason for casting the director as an actor for so many times can be they may have received the great success in their own direction. And continuing this chain production house kept investing on the director where they don't have to bother about actor. There can be many different reason for such big number of movies for some actor.

2). Actor who had directed and appeared in same movie most number of times?

a. **Lewis Lovhaug**

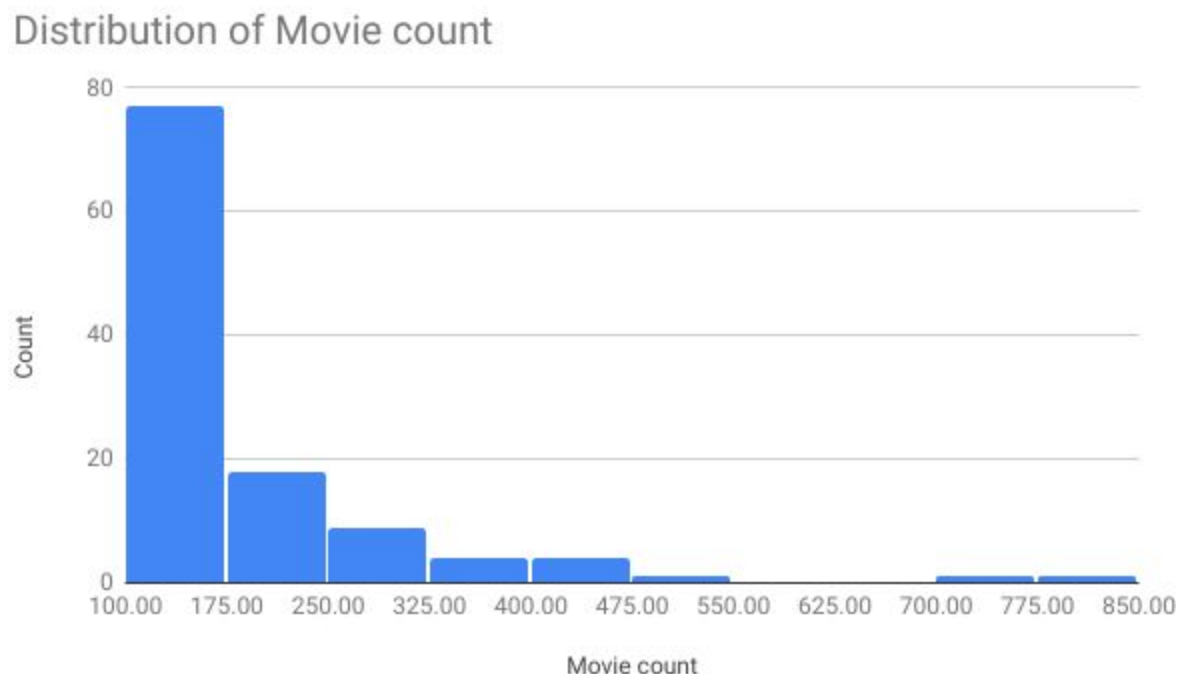

**3).** Total number of actors who directed and acted in same movie at least 100 times?

**b. 115**

**4).** Total number of actors who directed and acted in same movie at least 200 times?

**c. 7**

**5).**

Who The above histogram shows the movie count range and the count of actor-director who fall in that range. Likewise, the actors who have directed the 100-175 movie were around 76. We can see there are hardly 2 actor-director who have created more than 700 movies.

This graph can help us analyse the popularity of working actor as a director.
